

Data Infrastructure Discovery Questionnaire

Pre-engagement worksheet

This questionnaire helps us understand your source systems, reporting landscape, and operational pain before the discovery call. Fill out what you know — skip what you don't. We'll fill in the rest together.

Return completed PDF to arnauddg27@gmail.com or bring it to the call.
Estimated time: 25–40 minutes. Not every question applies to every builder.

What we'll do with your answers

- Score each KPI as ready / partial / blocked based on available data
- Produce a written warehouse audit within 5 business days
- Return a fixed-price engagement proposal matched to your scope
- Flag any source-system constraints that would change the timeline

Respondent

Your name

Title / role

Email

Phone

Date completed (YYYY-MM-DD)

1. Company overview

Company legal name

Doing-business-as (if different)

Primary operating state(s)

Entities / LLCs in operation (one per line)

Homes closed last 12 months (approx.)

Target homes for next 12 months

Product mix — entry / mid / premium / build-to-rent (describe)

2. Source systems (ERP + adjacent)

Primary construction / job-management ERP

NewStar (Constellation)	Hyphen HomeFront / BRIX
BuilderMT / Mark Systems	BuilderTrend
CoConstruct	Procore
BuildPro	Sage 300 CRE
Viewpoint Spectrum / Vista	CMiC
ComputerEase	Custom / homegrown
Other	
If 'Other' — ERP name & version	

ERP hosting

Vendor-hosted SaaS	On our server (office or colocation)
Our cloud (Azure / AWS / GCP)	Unsure — IT can confirm

ERP database engine (if server-hosted)

SQL Server	Oracle
PostgreSQL	MySQL
Other / N/A	

ERP data access we can provide

Read-only DB user + VPN/SSH/IP allowlist	REST API / OAuth
Scheduled CSV export from IT	Manual XLSX export only
Unsure	

Who owns the ERP data and runs custom reports today?

Any ERP modules NOT currently in use (job cost, payroll, accounts payable, etc.)?

3. Finance & accounting

General ledger system (if different from ERP)

Accounts payable software

Accounts receivable / billing software

Construction loan / draw tracking — what tool?

Are WIP and cost-to-complete reports produced today?

Yes, weekly	Yes, monthly
Ad hoc only	No

Who prepares the job-level P&L at closing?

Month-end close timeline (calendar days)

4. Sales & CRM

CRM or lead tracking tool

Salesforce	HubSpot
Lasso CRM	Sales Simplicity
BuilderMT / Mark Systems	Pipedrive
Spreadsheet	None
Other	

If 'Other' — tool name

Where do contract signatures live (system + retention policy)?

How is contract-to-close progress tracked today?

Top 3 sales KPIs exec team looks at weekly

5. Construction operations

Schedule / milestone tracking tool (Procore, BuilderTrend, MS Project, Smartsheet, sheets...)

Field time-tracking or daily-log tool

How are superintendent workloads balanced today?

Typical construction cycle (start to CO), in days

What phases/milestones are captured per job?

Permit submitted/issued	Foundation poured
Framing	MEP rough-in
Drywall	Finishes
Final walk	CO
Closing	None of the above — informal only

6. Land, permitting & development

Land acquisition pipeline — where is it tracked?

Spreadsheet (Excel/Google Sheets)	CRM module
Dedicated land-acquisition tool	Project management tool
Not tracked systematically	

Typical # of land deals in pipeline at any time

Permit tracking — in ERP, separate tool, or sheets?

Primary permitting jurisdictions (top 5 cities/counties)

7. Property management (if applicable)

Do you hold rental inventory?

Yes — build-to-rent is a strategy	Yes — hold-for-rent some unsold
No	

PM software (Yardi, AppFolio, RentManager, Buildium, other)

Number of units currently under management

8. Reporting & spreadsheets today

What are your most important weekly reports? (list title + audience)

What are your most important monthly reports?

How many hours/week are spent manually assembling reports? (estimate)

Who owns this work today?

Which spreadsheets are mission-critical right now? List file names + which department owns each (5–15 typical)

Where do those spreadsheets live?

- | | |
|----------------------------------|---------------------------|
| Google Drive / Sheets | Microsoft OneDrive (M365) |
| SharePoint document library | Dropbox / Box |
| Local drives / email attachments | |

If on Microsoft 365 — can your IT register an Azure AD app with Files.Read.All for our ingestion?

- | | |
|--------------------|-----------------------------|
| Yes — IT confirmed | Yes — needs to be requested |
| No / unsure | N/A — not on Microsoft 365 |

Schema-stability of these spreadsheets

- | | |
|--|--|
| Stable — same columns every week | Mostly stable — occasional new columns |
| Volatile — columns rename / move regularly | |

9. Current BI / dashboarding

Do you have any BI tool in place?

Power BI	Tableau
Looker	Metabase
Domo	Sisense
Retool / custom	None

What has worked and what hasn't with current BI? (honest answer helps)

Who administers BI access and permissions today?

10. Cloud & warehouse posture

Existing cloud accounts

Google Cloud (GCP)	Amazon Web Services (AWS)
Microsoft Azure	None yet

Existing data warehouse

BigQuery	Snowflake
Redshift	Databricks
Postgres / SQL Server	None

Who administers cloud billing and IAM?

Any data residency / compliance requirements (HIPAA, SOC 2, specific state rules)?

11. Integrations & data flow

Any existing data pipelines in place?

Fivetran

Airbyte

Custom scripts

Stitch

n8n / Zapier / Make

None

If yes, who maintains them and what do they sync?

Systems that already integrate with each other today — describe briefly

Integrations you wish existed but don't

12. Pain points & goals

What number do you not trust today? (cost, margin, cycle time, sales velocity, etc.)

Where in the lifecycle does visibility break down first?

If we could deliver one dashboard in 30 days, what would it show?

What must be true for this engagement to be a win 6 months from now?

13. Stakeholders & access

Primary point of contact — name, role, email, phone

Exec sponsor — name, role

IT / data lead — name, role

Who needs dashboard access day-one? (roles or names)

14. Constraints, timeline, & engagement preference

Target go-live date

Hard deadline (if any) — and reason

Engagement tier preference

Minimal — Construction + Sales + Audits, 4 weeks, \$25K–\$45K Typical — 8–9 tabs across 5 sections, 6 weeks, \$50K–\$85K

Full — All 12 tabs incl. Land + Property Mgmt, 8 weeks, \$90K–\$120K ~~120K~~ — discuss in kickoff call

Ongoing monthly retainer interest (\$3K–\$6K/mo for KPI tuning, schema-drift fixes, alerts)

Yes — quote me

Maybe — revisit at delivery

No — we'll handle ongoing maintenance ourselves

Anything else we should know — prior failed attempts, internal politics, competing tools under evaluation

Confirmation

By completing this questionnaire I confirm the information is accurate to the best of my knowledge and may be used to prepare a warehouse audit and engagement proposal.
