

# Client Intake Form — A.D. Homes & Consulting

---

## Client Intake Form — A.D. Homes & Consulting

---

**Instructions:** Fill out one form per builder engagement. Replace ☐ with ☒ for checked items. Replace \_\_\_\_\_ with the relevant value. Email completed form to your A.D. Homes contact, or share via Google Doc / printed PDF. We use this to plan week 1 of your build, so the more you can fill in, the faster we can move.

Estimated time to complete: **30–45 minutes** with input from operations, finance, and IT.

---

### 1. Company Profile

---

**Legal entity name:** \_\_\_\_\_

**DBA / brand name:** \_\_\_\_\_

**Primary state(s) of operation:** \_\_\_\_\_

**Number of homes closed last 12 months:** \_\_\_\_\_

**Number of homes currently in flight (started but not closed):** \_\_\_\_\_

**Number of communities / subdivisions actively selling:** \_\_\_\_\_

**Number of distinct legal entities under your umbrella:** \_\_\_\_\_ (single LLC vs holding company structure)

**Annual revenue (range):** - ☐ Under \$20M - ☐ \$20M – \$50M - ☐ \$50M – \$100M - ☐ \$100M – \$250M - ☐ \$250M+

---

### 2. Source Systems Inventory

---

Check every system your team uses. We'll integrate all of them. Add notes on which department owns each.

## 2.1 Construction / Job Management ERP

| System                  | Use it?                  | Department contact | Approximate user count |
|-------------------------|--------------------------|--------------------|------------------------|
| NewStar (Constellation) | <input type="checkbox"/> | _____              | _____                  |
| Hyphen HomeFront / BRIX | <input type="checkbox"/> | _____              | _____                  |
| BuilderMT               | <input type="checkbox"/> | _____              | _____                  |
| BuilderTrend            | <input type="checkbox"/> | _____              | _____                  |
| CoConstruct             | <input type="checkbox"/> | _____              | _____                  |
| Procore                 | <input type="checkbox"/> | _____              | _____                  |
| BuildPro                | <input type="checkbox"/> | _____              | _____                  |
| Mark Systems / FAST     | <input type="checkbox"/> | _____              | _____                  |
| Custom / homegrown      | <input type="checkbox"/> | _____              | _____                  |
| <b>Other:</b> _____     | <input type="checkbox"/> | _____              | _____                  |

**Where does this system live?** - ☐ Cloud SaaS (vendor-hosted) - ☐ Server in our office / colocation - ☐ Server in Azure / AWS / GCP - ☐ Don't know — IT can confirm

**Database engine (if known):** ☐ SQL Server ☐ Oracle ☐ PostgreSQL ☐ MySQL ☐ Other:  
\_\_\_\_\_

## 2.2 Financial Systems

| System              | Use it?                  | Notes |
|---------------------|--------------------------|-------|
| QuickBooks Online   | <input type="checkbox"/> | _____ |
| QuickBooks Desktop  | <input type="checkbox"/> | _____ |
| Sage 300 CRE        | <input type="checkbox"/> | _____ |
| Sage Intacct        | <input type="checkbox"/> | _____ |
| NetSuite            | <input type="checkbox"/> | _____ |
| Foundation Software | <input type="checkbox"/> | _____ |
| Xero                | <input type="checkbox"/> | _____ |
| <b>Other:</b> _____ | <input type="checkbox"/> | _____ |

## 2.3 CRM / Sales Pipeline

| System                   | Use it?                  | Notes |
|--------------------------|--------------------------|-------|
| Salesforce               | <input type="checkbox"/> | _____ |
| HubSpot                  | <input type="checkbox"/> | _____ |
| Lasso CRM                | <input type="checkbox"/> | _____ |
| Builder ERP (CRM module) | <input type="checkbox"/> | _____ |
| Spreadsheets only        | <input type="checkbox"/> | _____ |
| <b>Other:</b> _____      | <input type="checkbox"/> | _____ |

## 2.4 Property Management (if you operate rentals)

| System                | Use it?                  | Notes |
|-----------------------|--------------------------|-------|
| AppFolio              | <input type="checkbox"/> | _____ |
| Buildium              | <input type="checkbox"/> | _____ |
| RentVine              | <input type="checkbox"/> | _____ |
| Yardi                 | <input type="checkbox"/> | _____ |
| Spreadsheets only     | <input type="checkbox"/> | _____ |
| Don't operate rentals | <input type="checkbox"/> | _____ |
| <b>Other:</b> _____   | <input type="checkbox"/> | _____ |

## 2.5 Spreadsheets Used Operationally

List every Google Sheet or Excel workbook your team relies on for tracking that lives **outside** the ERP. Most builders have 5–15 of these. Examples: weekly construction status, land acquisition pipeline, exception logs, commission calculations.

| Spreadsheet name              | Where it lives                                                                                                                             | Owner                   | Update frequency |
|-------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|-------------------------|------------------|
| Example: Land Acquisition WIP | OneDrive — Operations folder                                                                                                               | Mike (Land Acquisition) | Weekly           |
| _____                         | <input type="checkbox"/> OneDrive <input type="checkbox"/> Google Drive <input type="checkbox"/> SharePoint <input type="checkbox"/> Local | _____                   | _____            |

| Spreadsheet name | Where it lives                                         | Owner | Update frequency |
|------------------|--------------------------------------------------------|-------|------------------|
| _____            | [ ] OneDrive [ ] Google Drive [ ] SharePoint [ ] Local | _____ | _____            |
| _____            | [ ] OneDrive [ ] Google Drive [ ] SharePoint [ ] Local | _____ | _____            |
| _____            | [ ] OneDrive [ ] Google Drive [ ] SharePoint [ ] Local | _____ | _____            |
| _____            | [ ] OneDrive [ ] Google Drive [ ] SharePoint [ ] Local | _____ | _____            |
| _____            | [ ] OneDrive [ ] Google Drive [ ] SharePoint [ ] Local | _____ | _____            |
| _____            | [ ] OneDrive [ ] Google Drive [ ] SharePoint [ ] Local | _____ | _____            |
| _____            | [ ] OneDrive [ ] Google Drive [ ] SharePoint [ ] Local | _____ | _____            |

## 2.6 Other Data Sources

- ☐ Construction loans tracked in a bank portal — bank: \_\_\_\_\_
- ☐ Permits tracked in county portals — counties: \_\_\_\_\_
- ☐ MLS / RETS feed for sales comps — provider: \_\_\_\_\_
- ☐ Email-attached weekly reports — describe: \_\_\_\_\_
- ☐ Other: \_\_\_\_\_
- 

## 3. Stakeholders & Decision Makers

| Role                            | Name  | Email | Phone | Notes |
|---------------------------------|-------|-------|-------|-------|
| <b>Executive sponsor</b> (signs | _____ | _____ | _____ | _____ |

| Role                                                         | Name  | Email | Phone | Notes |
|--------------------------------------------------------------|-------|-------|-------|-------|
| off on dashboards)                                           |       |       |       |       |
| <b>Operations lead</b><br>(cycle time, schedule, exceptions) | _____ | _____ | _____ | _____ |
| <b>Finance lead</b><br>(P&L, WIP, margins)                   | _____ | _____ | _____ | _____ |
| <b>IT contact</b><br>(provisions database access, Azure AD)  | _____ | _____ | _____ | _____ |
| <b>Sales / closings lead</b>                                 | _____ | _____ | _____ | _____ |
| <b>Property mgmt lead</b> (if applicable)                    | _____ | _____ | _____ | _____ |
| <b>Day-to-day point of contact</b>                           | _____ | _____ | _____ | _____ |

## 4. Access Provisioning

This section is what your IT team needs to prepare. We provide step-by-step runbooks for each item; this just tracks status.

### 4.1 Google Cloud (for the warehouse + dashboard hosting)

- ☐ We have a Google Cloud account already (project name: \_\_\_\_\_)
- ☐ We need A.D. Homes to spin one up for us (you'll get owner access at handoff)

### 4.2 Microsoft / Azure (for OneDrive xlsx access, if applicable)

- ☐ We use Microsoft 365 / OneDrive for Business — tenant: \_\_\_\_\_

- ☐ Our IT can register an Azure AD app with `Files.Read.All` permission (we provide the runbook)
- ☐ We don't use OneDrive — skip this section

### 4.3 ERP database access (if your ERP runs on a server you control)

- ☐ Our ERP is cloud-hosted (no DB access needed)
- ☐ Our ERP runs on our server — IT can provide:
  - ☐ Read-only database user
  - ☐ VPN credentials OR SSH tunnel OR IP allowlist
  - ☐ Read-replica or scheduled backup we can read from (preferred over production)
  - ☐ List of relevant schemas / tables (we'll do the deep audit)

### 4.4 Fivetran tenant

- ☐ Register a Fivetran account in our company name (free tier, you provide the setup steps)
- ☐ We already have a Fivetran account — admin contact: \_\_\_\_\_

### 4.5 Vercel hosting

- ☐ Register a Vercel account in our company name for the dashboard
- ☐ We already have a Vercel account — admin contact: \_\_\_\_\_

### 4.6 Domain for the dashboard

Preferred URL: \_\_\_\_\_ (e.g., `data.acmehomes.com`, `dashboard.acmehomes.com`)

- ☐ We control the domain and can add a DNS record
- ☐ We need help with DNS

---

## 5. Sample Data

The fastest way for us to scope your engagement accurately is to see real data shapes. We sign an NDA before this step. Anonymize names if needed; we care about structure, not specific records.

Please provide one or more of:

- ☐ Recent xlsx export from ERP (1 month of data is plenty)

- ☐ Sample of operational spreadsheets (the 5–15 you listed in section 2.5)
- ☐ Schema dump from ERP database (table list + column names)
- ☐ Sample API response from QuickBooks / Salesforce / etc.
- ☐ Screenshot or export of any dashboard / report you currently use

**Where will you upload these?** - ☐ We'll send via shared Google Drive folder you provide - ☐ We'll upload to a Box / Dropbox link you provide - ☐ Email attachment (under 25 MB)

## 6. KPI & Dashboard Priorities

Rank by importance. We use this to decide which tabs to build first if we hit a delivery constraint.

### 6.1 What does your team most need visibility into right now?

Rank 1 (most important) to 7 (least). Skip rows that don't apply.

| Priority | Domain                                                                       | Notes |
|----------|------------------------------------------------------------------------------|-------|
| _____    | <b>Construction</b> — cycle time, stage stalls, super workload, completion % | _____ |
| _____    | <b>Cost / Margin</b> — budget vs actual, WIP, per-job P&L, audits            | _____ |
| _____    | <b>Sales</b> — pipeline, closings, absorption rate, plan performance         | _____ |
| _____    | <b>Loans</b> — exposure, draw %, expirations, lender concentration           | _____ |
| _____    | <b>Land Acquisition</b> — pipeline, subdivision phases, deals                | _____ |
| _____    | <b>Permits</b> — applications in flight, stuck permits, by city              | _____ |
| _____    | <b>Property Management</b> — occupancy, delinquency, rent roll               | _____ |

6.2 What’s the #1 question your dashboard should answer at 8am every Monday?

6.3 What reports do you produce manually today that we should automate?

| Report name | How long does it take to make? | Frequency                            | Owner |
|-------------|--------------------------------|--------------------------------------|-------|
| _____       | __ hours                       | [ ] Weekly [ ] Monthly [ ] Quarterly | _____ |
| _____       | __ hours                       | [ ] Weekly [ ] Monthly [ ] Quarterly | _____ |
| _____       | __ hours                       | [ ] Weekly [ ] Monthly [ ] Quarterly | _____ |
| _____       | __ hours                       | [ ] Weekly [ ] Monthly [ ] Quarterly | _____ |

6.4 Custom thresholds / rules unique to your operation

Examples: “We flag jobs as ‘stuck’ after 45 days in one stage, not 30.” Or: “We target 12% margin on entry-level homes, 18% on premium.”

| Metric | Your threshold |
|--------|----------------|
| _____  | _____          |
| _____  | _____          |
| _____  | _____          |

7. Engagement Scope & Timeline

7.1 Tier preference

- ☐ **Minimal** — Construction + Sales + Audits (4–5 tabs) — 4 weeks — \$25K–\$45K
- ☐ **Typical** — 8–9 tabs across 5 sections — 6 weeks — \$50K–\$85K
- ☐ **Full** — All 12 tabs incl. Land + Property Mgmt — 8 weeks — \$90K–\$140K
- ☐ **Custom** — Discuss in kickoff call

## 7.2 Target go-live date

**Ideal date:** \_\_\_\_\_ (kickoff is typically 1 week after contract signing)

**Hard deadline (if any):** \_\_\_\_\_ — reason: \_\_\_\_\_

## 7.3 Existing infrastructure budget

- ☐ We're starting fresh, no existing data infra
- ☐ We have some infra (BigQuery / Snowflake / etc.) — describe: \_\_\_\_\_
- ☐ We have an existing dashboard we want to replace — describe: \_\_\_\_\_

## 7.4 Ongoing care preference

After delivery, would you like a monthly retainer for KPI tuning, schema-drift fixes, new metric additions, and alert routing?

- ☐ Yes — quote me on the \$3K–\$6K/mo retainer
- ☐ Maybe — let's revisit at delivery
- ☐ No — we'll handle ongoing maintenance ourselves

---

## 8. Compliance & Security

- ☐ Our data must stay in a specific region: \_\_\_\_\_
- ☐ We have specific compliance requirements (SOC 2, HIPAA, etc.): \_\_\_\_\_
- ☐ Our IT requires VPN access for any database connection: [ ] Yes [ ] No
- ☐ We require single sign-on (SSO / SAML) on the dashboard: [ ] Yes [ ] No — provider: \_\_\_\_\_
- ☐ We need audit logging on dashboard access: [ ] Yes [ ] No

---

## 9. Final Notes

**Anything else we should know before kickoff?**

---

---

---

**Best phone number for kickoff scheduling:** \_\_\_\_\_

Best email for ongoing project updates: \_\_\_\_\_

---

## What happens next

---

1. **You return this form** (email, shared Doc, or printed PDF) — we read it within 1 business day
2. **30-min scoping call** — we walk through your form, clarify any blanks, confirm tier
3. **SOW + agreement** — fixed-price contract issued within 2 business days of scoping call
4. **Kickoff** — typically 1 week after contract signing
5. **Week 1: discovery & access** — your IT provisions DB access + Azure AD app per our runbooks; we profile your data
6. **Weeks 2–6 (or 2–8): build** — warehouse, KPI logic, dashboards, drill-downs
7. **Week 7+: review & cutover** — three calibration sessions (ops, finance, exec); you sign off; we transfer accounts to your name

If you have questions while filling this out, email [arnauddg27@gmail.com](mailto:arnauddg27@gmail.com) or call **(407) 840-1368**.

---

Form version: 2026-04 · Pair this with `CLIENT_FACING_BRIEF.md` for the engagement overview
